

Introduction:

Health Permit Packet for TheFitExpo Anaheim

Dear Exhibitor,

If you are not selling, sampling, or giving away any consumable products for human or animal consumption, you may ignore these instructions. However, please email me to confirm what you will be exhibiting so I can remove you from the health permit list.

If you will be sampling or selling ingestible products, you must obtain a Health Permit approved by the Health Department.

Booth Number Assignment

If you haven't already done so, please email Marc@thefitexpo.com with your top 3 booth choices. Some high-demand areas, such as near the entrance or the main center aisle, may require you to list a 4th or 5th choice.

WARM WATER REQUIREMENT FOR HANDWASHING AT CERTIFIED FARMERS' MARKETS AND TEMPORARY EVENTS

Effective January 1, 2015, DEH will be enforcing the CalCode requirement for warm water (100°F) for handwashing. If a hard-plumbed sink with hot and cold potable water is not available, warm potable water may be stored in an insulated food-grade container with a spigot that can remain locked in the open position and that is capable of maintaining water warm.

There are some containers with a push button spigot that can be retrofitted with lever-type spigots. These may be available from the manufacturer or from water container filling stores. All materials must be food-grade and must use potable water supply.

Options for obtaining warm water for handwashing include, but are not limited to:

- Heating water at the commissary then filling insulated water containers;
- Use a hot water heater (such as a coffee maker), then then mix with cold water;
- Heating water in a clean pot over a range/griddle in the food booth.

A handwash station is required to be operational inside the food booth if unpackaged food is handled prior to any food handling,

- Insulated water container with spigot that locks in open position
- WARM WATER
- Liquid soap
- Catch bucket
- Paper towels

Here is a list of resources you may research further. **These are NOT recommendations or endorsements.** You must still verify the products are food-grade, may store warm water and meet the department requirements. Check with the manufacturer.
